1. Tools.
You need tracing paper (2 sheets), a colored pencil, a regular pencil, an eraser, and a medium-thickness felt-tip pen.

2. Ripping.
Rip one sheet of tracing paper in half.

3. Labeling.
Label the two halves “A” and “B.” Label the other page “C.”

4. Drawing a rectangle on page “A.”
You can use a ruler and other tools, or just trace the outline of a box. Opposite sides must be the same length.

5. Trace the rectangle on page “B.”

6. Trace many rectangles.
Trace many connected rectangles from page “A” to page “C.”

7. Draw a squiggly line.
On the left side of the rectangle on page “A.”

8. Trace it 3 times.
Trace that line onto page “B.” Put the squiggly line on left and right sides. Then put half “A” on top of page “B” and trace the squiggly line onto the right-hand side of that rectangle.
